I can plan an Egyptian Canopic Jar.

Remember:

The Canopic Jars were decorated with the heads of the four sons of Horus. Each Canopic jar guarded a different organ.

1. Imsety had a human head and protected the liver.
2. Qebhsenuf had the head of a falcon and guarded the intestines.
3. Hapy had a baboon head and protected the lungs.
4. Duamatef had the head of a jackal and guarded the stomach.
