

Countess Gytha Primary School Curriculum Information

Year

Merlin Class YR

Term

Summer 2024

Dear Parents,

This letter is designed to provide key information about learning this term. Our overarching themes for the term are 'Journeys!' and 'Space and Sea!'. Below you can find the details outlining the content covered for the different areas of learning for the term ahead.

SUBJECT	CONTENT
Communication and Language & English	Children's communication and language development is integrated across all areas of learning and continuous provision opportunities. We will continue to follow our phonics scheme, Little Wandle, to extend our phonics knowledge and continue to read longer words. This term, we will be encouraging further independence with writing, giving children the skills to read back through their work and edit short sentences to make sure they make sense. We will be refining our handwriting to ensure our letters are formed correctly. Children will be writing imaginatively this term, including writing short stories.
Maths	In maths, we will be using our understanding of numbers to 10 to help us explore numbers to 20. We will be consolidating addition and subtraction strategies, including the commutativity of numbers and number bonds to 5 and 10. Children will be exploring shapes and patterns and will learn simple properties of common shapes. We will be learning about different measures, including capacity, volume and weight. Children will be able to use mathematical vocabulary to describe and compare when measuring. This term has a specific focus on efficient recall of facts and number fluency. We will be revisiting prior learning from throughout the year to strengthen children's number sense.
Physical Development (PE)	The children will return to their yoga sessions with Paula in the second half of this term. We also begin swimming from 10th June 2024. Our PE lessons on a Wednesday will focus on multi-skills and athletics in preparation for the children's first sports day at school! The children will be practising their throwing and catching skills, balance and co-ordination as well as their spatial awareness.
Understanding the World	To develop our Understanding of the World, we will be exploring the natural world by learning about different places around the world (including Space!). We will discuss different people, cultures and communities through the Somerset-agreed RE units. We will be exploring past and present by learning about the changes in transport over time and also studying Neil Armstrong. Special celebrations this term include Eid and Summer Solstice.
Expressive Arts and Design	In music, we will be listening to, learning to sing or singing along to various action songs. Craft opportunities will include nature artwork and junk modelling. This term, children will be creating their own space shuttles from recycled materials.
Personal, Social and Health Education	We will be following the SCARF units 'Being my Best' and 'Growing and Changing'. We will be thinking about perseverance and self-motivation as well as learning about how we grow over time (life cycles).

Welcome back, Merlin Class!

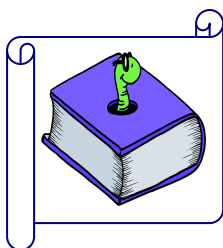

Our final term is set to be a busy one! We begin our term with our topic 'Journeys!' and will end the school year looking at 'Space and Sea!'. We also have our school trip coming up in June to look forward to, as well as other fabulous school events including sports day, end of year celebrations and the summer fayre!

We are very excited about all the fantastic things heading our way. Don't forget to look on Tapestry to see what we get up to!

Miss Morris, Mrs Hoddinott & Mrs Hewlett

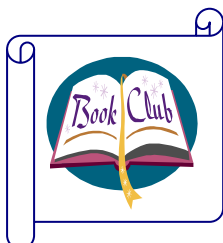

Homework

Homework is collected in on a Wednesday and reissued on a Friday.

Reading

- Encourage your child to recall the letters and sounds learnt so far in phonics.
- Please try to hear your child read **daily** and allow them time to discuss the book. Don't forget you can use the Collins E-Book service to access your child's reading books at home.
- Your child will come home with some 'Tricky Words' each week. Please do look at these often with your child. It really does help their reading fluency!

Homework & Spellings

- Homework is reissued on a **Friday**. Homework given reflects recent classroom learning and intends to consolidate children's understanding of recently taught concepts. Children should return completed homework every **Wednesday** please.
- Children will continue to bring home spellings. Please help your child to read and spell the words. **There will be no spelling test.** We will also be practising these spellings in school throughout the week to support children's confidence at independent spelling. This will support their writing and their ability to segment words to spell. New spelling words will be given every **Friday**, along with the homework and tricky words.

ADDITIONAL INFORMATION:

PE

Children now change in school for PE. Please can your child bring their named PE kit into school every **Wednesday**.

Outdoor learning/Welly Walks

Please can you ensure your child's wellies and waterproof coats are in school at all times.

Clothing

Please can all items of clothing be **clearly named**. This is particularly important now the children are changing for PE in school. Thank you!
