Here are some words linked to this bird.

Do you know what they mean? Look them up and define them.

- ornithologist
- plumage
- falconry
- prey
- stoop
- persecuted
- pesticides

Peregrine means 'wanderer'.

What does this imply about how this bird lives?

Did you know that this is a peregrine falcon?

How many other birds of prey can you name?

The peregrine falcon holds a record across the whole animal kingdom.

What do you think it might be?

Think 'flight'.

This peregrine falcon is on the top of Salisbury Cathedral.

Why do you think it has made its nest there?

Do you have any other questions about peregrine falcons that you would like to research? Where else can they be found?
