

FLOWER YOUR FUTURE

A robot walking your dogs

A kind robot makes bread for the world to enjoy

A dog friendly shop/spa for your pets

A park for everyone to enjoy

A nature-loving robot selling flowers and seeds for everyone

A friendly robot running a cosy, pink café for everyone to enjoy

This design is a nature, slower and animal based. We have put cities, aesthetic aspects on the planets and trees so we can breathe. We also added robots as it is in the future.
